## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/25/2008 has been entered.

### ***Information Disclosure Statement***

The information disclosure statement filed 6/25/2008 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. The lined through reference has not been considered and the initialed references have been considered.

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Hohenshell on 6/4/2008.

The application has been amended as follows:

Claims 1-49 have been canceled.

Claim 50 - in lines 9 and 10, "the first incision to dispose the shaft body distal end within the body cavity or inserted through" has been deleted.

In the first paragraph of the specification in line 2, --now US Patent 7,338,434,-- has been inserted following "2003".

Claims 52, 57, 68 and 77 will be examined because they depend from an allowable claim.

### ***Conclusion***
